

About DaVita Village Trust

DaVita Village Trust (DVT) aspires to improve community health, wellness and vitality, including chronic kidney disease education, prevention and treatment. With your support, this year DaVita Village Trust will:

- Complete 18 international medical missions that will expand access to quality dialysis treatment for more than 330 new patients around the world.
- Provide free, rapid screening for more than 12,000 people in at-risk and underserved communities.*

DaVita Village Trust was founded in 2014 by DaVita Inc., a leading provider of kidney care in the United States, and brought together two prominent kidney care non-profit organizations, Bridge of Life—DaVita Medical Missions™ and The Kidney TRUST™, under one umbrella. The combined efforts of these programs means DaVita Village Trust can provide a full range of kidney care services.

Why Should You Be a DaVita Village Trust Partner?

DaVita Village Trust is uniquely positioned to provide urgently needed dialysis and kidney screenings to underserved communities nationally and internationally.

- About 1 in 10 people have some form of kidney damage, and every year millions die prematurely of complications related to their kidney disease.
- DVT is one of the only organizations who provide free, rapid-screening programs to underserved communities.
- DVT seeks out partners in emerging countries in order to provide life-saving treatment to people with CKD who have few, if any, options available.
 - DVT will help create a partnership to engage your local community and employees and will tailor it to your marketing, sales and promotional objectives.
 - DVT forms strategic partnerships with other organizations focused on strengthening the healthcare infrastructure. These partnerships continue to expand our impact and operational efficiency.

* Of the 12,000 kidney screenings happening this year, we expect to identify approximately 12% of patient to be at risk for end stage renal failure (Stage 3 or higher).

Sponsorships

DaVita Village Trust Annual Giving Levels and Member Benefits: Your annual sponsorship can be combined with a TOUR DaVita event sponsorship. Your sponsorship of DVT will help us provide life-saving treatment and prevention through our programs Bridge of Life and The Kidney TRUST. The money you invest today will ensure that the people we serve are thriving tomorrow.

The Bridge of Life program works to save and improve lives by bringing kidney care treatment and education to underserved communities around the world.

The Kidney TRUST program focuses on a free, rapid-screening program and identifies individuals who have signs of kidney impairment, and encourages participants to seek medical follow-up as appropriate

Your Investment at Work

"DaVita Village Trust has been an outstanding partner organization. They have committed to real capacity-building through deep knowledge exchange and its equipment donations. Our joint efforts to expand access to quality dialysis services in India is making a significant difference to the lives of patients every day."

Sachin Jain
*International Human
Benefit Services*

Your sponsorship of DaVita Village Trust will provide prevention, awareness and life-saving treatment to thousands of men, women and children in need. The money you invest today will ensure our patients are thriving tomorrow. Here are some examples of what your dollars do.

\$100,000 Investment

- Provide rapid CKD screenings for 4,000 individuals
- Partner on a Bridge of Life Medical Mission in an area such as Maiduguri, Nigeria to place 12 dialysis machines which will provide treatment for hundreds of patients where there is a high mortality rate due to lack of access
- Partner on a Chronic Kidney Disease (CKD) community awareness, cause-related marketing program through media channels locally and/or nationally and through social media
- Provide training for three to ten nurses and biomed on a Bridge of Life Medical Mission

\$50,000 Investment

- Provide rapid CKD screenings for 2,000 individuals
- Provide thousands of critical supplies for CKD screenings such as Vacutainer needles, green top tubes, alcohol pads, biohazard bags, tourniquets, gauze pads, and plastic syringes
- Partner on a CKD community awareness, cause-related marketing program through media channels locally and/or nationally and through social media
- Purchase and install a water system for a Bridge of Life Medical Mission in Jamaica or India

\$25,000 Investment

- Provide rapid CKD screenings for 1,000 individuals
- Purchase dialysis supplies for a Bridge of Life Medical Mission
- Partner on a CKD community awareness cause-related marketing program through media channels (local paper, national outlets, social media campaign)
- Purchase a generator for a Bridge of Life Medical Mission in Kenya to ensure sustainability of treatment

\$15,000

- Provide rapid CKD screenings for 600 individuals
- Purchase and install water system for a Bridge of Life Medical Mission in a location such as Nigeria to ensure sustainability of treatment
- Provide consumable supplies for a Bridge of Life Medical Mission in a location such as India
- Provide follow-up training for nurses and biomed of a past Bridge of Life Medical Mission to areas such as Kenya or the Philippines

\$5,000

- Provide rapid CKD screenings for 200 individuals
- Provide transportation for a Bridge of Life Medical Mission team
- Purchase biomed parts and equipment for a Bridge of Life Medical Mission

\$1,000

- Provide rapid CKD screenings for 40 individuals
- Support Bridge of Life Medical Mission volunteers to provide in-country training for their staff
- Provide follow-up training for nurses and biomed of a past Bridge of Life Medical Mission in a country such as Mexico
